Test Your Mental Power!

Monte Mayor Golf & Country Club, Costa del Sol

Since its opening in 1989, **Monte Mayor** has got a unique reputation worldwide. Designed by the famous golf course architect José Cancedo, this exciting gem is hidden in the hills behind Cancelada.

Embedded into a natural amphitheater formed by the Serrania de Ronda Mountains, the fairways of **Monte Mayor** have been created not by bulldozers, but by the wild nature of Andalusia. Nowhere else you will find such an extreme layout in such a quiet environment.

The course requires a sober mind. Each hole is an incredible challenge with blind tees, steep gorges and terraced fairways which seem to swallow the balls.

On the 3rd Hole (Par 3) you must hit the green with the first stroke because it is a dramatic peak green with murderous gorges on both sides.

Intuition and good nerves are required if you tackle the long 4th hole. The tee is si-

tuated on a raised platform and you need to reach an isolated plateau with one stroke. Your second stroke must make a direct hit on another plateau. This challenge is compensated by the view of a magnificent waterfall on the green.

The 8th hole via a blind tee-off demands a good hit between picturesque rock formations. Experts claim that this par 4 is the „easiest“ hole on the course.

A feast for the eyes is the 16th hole, a long par 5, reachable with the second stroke after a successful drive. The Green is located approximately 100 meters below the elevated tee, from which you can enjoy spectacular 360 ° views of the mountains and the sea.

The last hole is a steeply running down par 3, surrounded by lush vegetation and scenic hills. If you succeed to place your ball behind the creek, you have done it. Your reward is satisfaction and exhaustion. Relax after the round in the shady patio of the clubhouse in

the valley and enjoy the delicious specialties of the region.

Due to the circumstances, carts are mandatory and are already included in green fee.

This extravagant golf course is considered one of the best courses of Spain, and even among experts it is estimated as one of the top courses in the world.

It is no coincidence that the Monte Mayor Golf emblem is a bull.

As a Golf Fee Card holder, you play at Monte Mayor golf club with 20% price advantage in December and January and with 10% the rest of the year. In addition, you can stay with attractive discounts in numerous hotels of the area.

Top Golf on the Dream Island

Son Gual - Palma, Mallorca

Those who love the island of Mallorca appreciate convenient arrival, relaxing climate, unique location and the abundance of outstanding golf courses and hotels.

A place where the special advantages of the island are perfectly combined is the golf course **Son Gual**, opened in 2007, which already now has got a legendary reputation.

Slide up the long driveway and let yourself be enchanted by a masterpiece of golf architecture. With **Son Gual**, Thomas Heaven has created a course on which gently rolling fairways, expansive bunker landscapes, sophisticated water hazards and fine carpet-like huge greens merge into a successful symbiosis. Old olive trees, colorful wild flower meadows and picturesque vineyards surround this overwhelming gem, and above all a magnificent mansion which hides its own history is enthroned.

The course runs in two loops. The first nine holes run along the borders of the huge property, the second nine in the inside. Large lakes with naturally appearing streams also serve as additional irrigation sources and as a charming feast for the eyes. The fairways 7, 14, 15 and 18 truly deserve to be characterized as "stand-out holes ...". The 7th is narrow and goes uphill, the 14th offers two possibilities to reach the target, the 15th is a fortified bunker, and on the 18th only the brave will land with two strokes on the green.

Son Gual airs spaciousness and tranquility. Tranquility is an important element because the mental strength of each play-

er will face a tough test. The place is a challenge and not only because of its impressive length (6,621 m from the champions tee). Due to 6 tees per hole, the players of all Hcp classes will have fun despite of that. After an exciting round you should enjoy a drink at the elegant club terrace, review every hole once again and enjoy the panoramic view of the picturesque landscape, Palma and the Tramuntana Mountains. It goes without saying that also the clubhouse atmosphere meets the highest demands. The restaurant which celebrates Mediterranean cuisine in its full perfection is worth a visit.

Our conclusion: Son Gual is without doubt a place for experts and highly concentrated players. Intelligence is required because not everyone who directly attacks the flag positions will be rewarded. Slightly less trained players will be compensated by brilliant individual strokes. You can start every 15 minutes.

From May 8-10 the „Son Gual Mallorca Senior Open“ will take place here.

Golf Holidays in the Garden of Eden

Das Gogers, Golf & Spa Hotel in Burgenland

Firstclass service, excellent spa areas and generous golf varieties provide an unforgettable sojourn.

The climate in southern Burgenland is so mild and sunny that golf can be played all year round. Apples, peaches and outstanding wines ripen here in enchanted surroundings. Thus it is not surprising that in the idyllic Bad Stegersbach, 130 km south of Vienna, the largest golf resort in the Alps Republic is situated. 45 holes snake on 190 hectares through three localities. The view is magnificent, and the lush fairways are running through the rolling hills and seven valleys.

Right next to the clubhouse of the golf region the first ecological design hotel has found its home. **Das Gogers, Golf**

and Spa Hotel merges outwardly with the beautiful landscape, and you have to look closely in order to discover the building. The transitions from the outdoor to the indoor areas are fluid and hard to discern. 40 light-flooded rooms – each one can be reached over its own little bridge - nestle perfectly with their green roofs to the gentle slopes. Caring details cater for pleasant surroundings.

The large restaurant, the outdoor spa area with pool and the intermediate airy bridge are widely visible. By the way, with carts provided by the hotel, the guest can reach three tee offs directly. The spa area at the

Gogers offers everything that the golfer's heart desires after an exciting round: Gym, Finnish sauna, Bio saunarium, steam bath, solarium, a massage and beauty center, relaxation areas and a heated panorama whirlpool. In the restaurant, gourmets enjoy freshly prepared dishes with wine from the region. Golf, nature, wellness, enjoyment, design and atmosphere - at the Gogers, Golf and Spa Hotel, this is doubtless more than the sum of individual parts. Golf Fee Card holders stay at this oasis with a 20% price advantage. The Gogers has greenfee agreements with all courses of Golfschaukel Lafnitztal.

Pure Golf and Wellness

Hartl Resort Hotel Maximilian,
Bad Griesbach-Bavaria

The choice between 20 different golf courses of all levels means endless fun for the beginners and for the advanced golfers. Consequentially the golf and wellness mecca of Bad Griesbach in the delightful spa triangle of Rott valley is supposed to be one of the best resorts in Europe. Sporty and elegant **Hartl Resort Hotel Maximilian** with its various amenities is recommended as a first-class accommodation facility. Its motto is "upscale Bavarian hospitality in a rustic and cosy atmosphere". All 221 rooms and suits are equipped with internet connection for laptops, LAN, cable TV, minibar, safe and a balcony or a terrace. An in-house spa and wellness area with massage, beauty and gym, and last but not least a great leisure program make holidays in the "Bavarian Tuscany" an unforgettable experience.

The guests will also be spoiled by the finest buffet dishes and seasonal gourmet menus. A delicious Wellness & Spa menu is daily available for the calory-conscious gourmets, and the fans of the Bavarian cuisine will find something for their taste too. Enjoy your tea at Café Max,

your a la carte dinner at the restaurant Ferrara or your dinner arrangement at the "Maximilian Stuben". And then dance at the Max Bar! Of course you can relax there already at the apres-golf or sip your aperitif. There is live piano, music and cocktails at special prices at the blue hour.

When the doors of the beauty and wellness resort are closed behind you, stress and hustle stay outside. Absolutely relaxed you may decide how you would like to be pampered from head to toe. The highlight is the 2500 sqm area with outdoor sports pool, indoor thermal pool, Turkish aroma steam bath, Unctorium, sauna landscape, snow paradise and much more. The thermal water "the Gold of Bad Griesbach" comes from a depth of 497, 878 and 1522 meters and is heated by nature to 30, 38 and 60°. Now it is scientifically proven that 70% of the guests who spend their vacation at spa resorts for health reasons are free from pain for three to six months and don't need any medicine at this time.

The **Maximilian** certainly also offers everything that will make the golfer's heart beat faster: golf shop, golf academy, online tee time reservation and a free shuttle to all 18-hole championship courses and to the Golfodrom.

As a Golf Fee Card holder, you receive 15% discount on the regular daily rate (accommodation/breakfast).
